

Hi Changemakers,

Congratulations on taking your first step toward innovation and impact with EcoInnovators Ideathon 2026!

Your journey to create change begins this Friday, 17th November at 6:00 PM, with a live webinar that will help you kickstart your project with clarity and confidence.

In this session, you'll:

- Get a complete overview of the Rooftop PV Systems problem statement and how to approach it.
- Understand the input dataset, expectations for your AI/ML-powered solution, and how to apply Responsible AI principles.
- Learn about the evaluation criteria, deliverables, and submission process.
- Interact during a live Q & A session to get your doubts cleared directly by our experts.

💡 About the Speaker:

Srinivas Sridharan, Lead Engineer – Data Science at CSTEP, has extensive experience developing AI/ML solutions for sustainability, energy, air quality, and climate action. An IIT Madras alumnus, he has worked on projects involving air quality calibration, climate-smart agriculture, and renewable energy systems, including Rooftop PVs.

Kindly share these links with your students who have registered for the Ideathon and encourage them to attend both sessions to gain valuable insights into AI, innovation, and sustainable problem-solving. A guide has been attached for reference.

Join the webinar live here 🖱️ <https://events.teams.microsoft.com/event/18fc07e3-3bbd-481c-9018-e6ee3fa5f82f@10f23a17-5b0e-4155-bdc4-d5860c55f68d>

Be ready to learn, ask, and innovate, because every great idea starts with curiosity.

See you at the webinar!
